

Moazzam Hameed

Full Stack Developer | ASP.NET Core & React Developer

📍 Pakistan ✉️ moazzamhameed07@gmail.com 📞 03117966063 🌐 [GitHub](#)

SUMMARY

Motivated Full Stack Developer with hands-on experience in developing scalable web applications using ASP.NETCore Web API, React.js, SQL Server, Oracle APEX, and Entity Framework Core. Skilled in building REST APIs, authentication systems, database-driven applications, and SaaS-based ERP solutions. Passionate about backend development, software architecture, AI-based systems, and modern web technologies. Strong interest in entrepreneurship and creating real-world software products.

EDUCATION

Punjab Group of Colleges	ICS
Engineering	Faisalabad • 2020-2022
GCUF	BS(Information Technology)
Information Technology	Faisalabad • 2022-2026

EXPERIENCE

Final Year Project (FYP) – Deepfake Detection System

- Developed an AI-powered Deepfake Detection System capable of identifying manipulated and fake media content.
- Used Generative Adversarial Networks (GANs) and deep learning techniques for fake image/video detection.
- Built backend services using FastAPI for model integration and prediction APIs.
- Developed a modern frontend interface for media upload and result visualization.
- Integrated machine learning models with web technologies for real-time detection and confidence scoring.
- Worked on dataset preprocessing, model training, and performance evaluation.
- Implemented REST APIs for communication between frontend and AI backend services.
- Focused on improving detection accuracy, user experience, and system performance.
- Explored cybersecurity and AI applications in digital media authentication and misinformation detection.

Technupur	Faisalabad
Internee	3 Months

- Gained hands-on experience in full stack web development using modern technologies and development practices.
- Assisted in developing and maintaining web applications using ASP.NET Core, React.js, and SQL databases.
- Worked on RESTful APIs, frontend integration, and database management tasks.
- Learned software development lifecycle (SDLC), debugging techniques, and version control using Git/GitHub.
- Collaborated with senior developers on real-world business applications and SaaS-based systems.
- Improved problem-solving, teamwork, and communication skills through practical project involvement.
- Participated in testing, bug fixing, and optimization of existing applications.

Technupur	Faisalabad
Junior Full Stack .NET Core Developer	October 2025 - Present

- Contributed to SaaS-based ERP systems and enterprise-level management modules.
- Developed scalable and secure web applications using ASP.NET Core Web API and React.js.

- Designed and implemented REST APIs with authentication and authorization using JWT and [ASP.NET](#) Identity.
- Worked with SQL Server, including writing optimized queries and stored procedures.
- Used Entity Framework Core for database operations and backend data management.
- Built responsive and user-friendly frontend interfaces using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Integrated frontend and backend systems to deliver complete end-to-end application functionality.
- Worked with tools such as Git, GitHub, Postman, Visual Studio, and Oracle APEX.
- Participated in debugging, performance optimization, testing, and deployment processes.
- Collaborated with teams to understand requirements and implement efficient technical solutions.

SKILLS

- ASP.NET Core
- Web API
- C#
- Entity Framework Core
- SQL Server
- React.js
- JavaScript
- Tailwind CSS
